WARRANTY INFORMATION

Any component that fails due to manufacturer's defect is guaranteed for 1 year. The warranty only covers products installed and maintained in accordance with the instructions provided by their respective manufacturer and no warranty is made with respect to any of our products that are otherwise installed or maintained. For full warranty details, visit our Warranty Section.

CONSTRUCTION

The PTM series exit sign is constructed with non-toxic, non-radioactive material. Made from strong rigid PVC plastic.

ILLUMINATION

Under normal lighting conditions, these signs are highly visible. In the event of low or no lighting due to power failure, the lettering on the signs will "Glow in the Dark". (Signs must be "charged" to glow -- requires 54 LUX (5ft candles) of fluorescent, metal halide or mercury vapor light illumination for 60 minutes).

EMERGENCY OPERATION

Upon failure of the normal utility power, this unit will provide at least 90 minutes of illumination. *This sign must be charged for a minimum of 60 minutes prior to being fully operational.

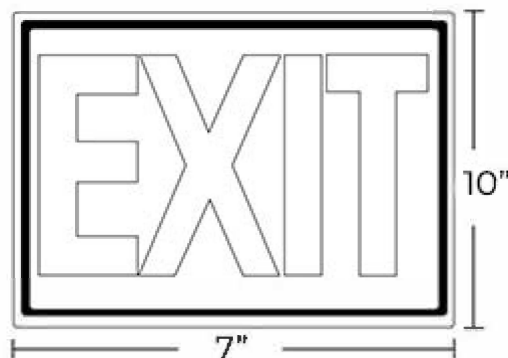

BATTERY - BATTERY BACKUP

The PTM series exit sign does not require any type of battery to operate; it is 100% power-free.

INSTALLATION

The PTM series exit sign features 3M self-adhesive backing that allows easy installation on clean flat surfaces.

DIMENSIONS

Weight : 2.00 lb
